Science and Technology Syllabus

Early Stage One

Foundation Statements- Science and Technology

Students explore their immediate environment by using the senses, questioning, sharing ideas and identifying simple cause-and-effect relationships.

They identify and safely use some equipment and computer-based technology to model and make things.

They recognise the different ways that information is sent and received and how these influence communication.

In this activity a student:

- Recognises and uses various means of communication. (IC ES1.2)
- Investigates their surroundings by observing, questioning, exploring and reporting. (INV ES1.7)
- Identifies and uses a limited range of equipment, computer-based technology, materials and other resources when undertaking exploration and production. (UT ES1.9)
