Science and Technology Syllabus

Stage One

### Foundation statements- Science and Technology Syllabus

Students follow a guided design process to create products, including information products, services and built environments. They draw and model design ideas using accepted methods and practices. They select and safely use a range of equipment, computer-based technology and other resources when designing and making. They communicate messages using a variety of media and technologies.

In this activity a student:

- Creates a range of information products and communicates using a variety of media. (IC S1.2)
- Selects and uses a range of equipment, computer-based technology, materials and other resources to undertake an investigation or design task. (UT S1.9)
